Asyra— Your new scanning system

We have added an amazing new testing system called Asyra. This technology is able to identify nutritional remedies that will affect your causal issues.

The Asyra testing process begins by taking energetic readings and measuring the body's capacitive reaction. Through the process, customized filters (frequencies) relating to specific issues (such as chemical toxins, allergies, digestion, etc.) are output. If any of these filters creates a disturbance to any energetic component, cellular component, tissue, organ, or system of the body,

Asyra identifies remedies that will remove underlying disturbances

the negative response will be registered by the patient's body through the Asyra.

The system will then automatically load remedies that are useful for restoring homeostasis or balance. It will then quickly scan through these until the patient's body identifies the remedy that will remove the underlying disturbance and allow the patient to obtain an improved level of health. The remedy is then placed in the Hold Tank to store your results. The Hold Tank stores both the filters that created an imbalance / disturbance and the remedies that allow you to restore homeostasis, balance, or improved health.

Synergy-Flex for sun damaged skin

One of the most severe and dangerous of all summer ravages is sunburn. Post Falls Naturopathic Clinic carries 3 different ointments that have dynamic healing virtue to repair your skin after sunburn. From Stan-

dard Process there is USF ointment and Chlorophyll ointment. Both of these remedies work wonderfully in soothing damaged skin and healing deep tissues. Of the two Chlorophyll ointment heals fastest, but might

leave a slight, temporary green tint on the skin. Synergy-Flex combines Elk Velvet Antler, Emu oil, and Vitamin E. It penetrates to deep layers of sun damaged skin bringing healing and anti-inflammatory effects.

New Products: Synergy-Flex, Elk Velvet Antler, and Emu oil

Save \$25 when you buy all three

Elk Velvet Antler is a natural dietary supplement used to relieve joint stiffness, increase bone density, boost energy levels, aid muscle recovery, balance cardiovascular activity, strengthen the immune system, increase libido activity, and heighten general vitality.

Emu oil is a proven anti-inflammatory, with effects comparable to that of ibuprofen; a bacteriostatic, it does not promote the growth of

bacteria; a Hypoallergenic, it is not known to cause skin irritation; highly penetrating oil that absorbs without leaving a greasy feel.

In Synergy-Flex we combine the healing power of Elk Velvet Antler and the penetrating power of Emu oil to create an anti-inflammatory lotion. Emu oil naturally contains Vitamin E, which is a major antioxidant and healing agent; Vitamin A, a known skin repairer and antioxidant;

Linoleic acid, which helps to ease muscle aches and joint pain; Oleic acid, which is a proven skin cell regenerator and anti-wrinkle agent; Saponins, proven skin softeners; and Terpenes, known antiseptics. Naturally enriched with pain relieving and anti-inflammatory agents, emu oil products also reduce discomfort and soothe sore muscles and joints offering a fast respite from leg cramps, muscle aches, pains and pulls.

Asyra's Comprehensive Analysis includes evaluation of over 5,000 items

Asyra's Functional Tests

Asyra's Comprehensive Analysis includes evaluation of over 5,000 items such as Bacteria, Cell Salts, Chemical Toxins, Dental Disturbances, Digestive Disturbances, Fungi, Heavy Metals, Mycoplasma, Neurotransmitters, Parasites, and Protozoa, to name a few.

In addition the following test are available:

- Hormonal Evaluations
- Emotional Stressors
- Circulatory Disturbances
- Digestive Maladies
- Nutritional Assessment
- Immune Disorders
- Weight Loss Evaluation
- Food Sensitivity Analysis

- Environmental Sensitivity Profile
- Metabolic Disturbances
- Sleep Disturbances
- And more . . .

On average, three to twelve visits are needed to fully restore optimum health. After each visit, you should notice positive changes in your health.

Asyra creates personalized homeopathic remedies to address casual issues

Research on Asyra's effectiveness

Drawing from a clinical pool of 1,800 patients, E.Alan Jeppsen, M.D., and Steven G. Osguthorpe, N.D., conducted a double-blind study of over 600 ran-

domly assigned patients, of which 100 were used as control subjects. This study, "Effectiveness of the Asyra in Assessing Sub-Physiologic Thyroid Levels in Women 35 to 65 Years of Age," yielded a 97 percent correlation with

blood chemistry.

Other research articles as well as the full text of the above research is available on the Asyra website: www.asyra.com

What is the Asyra Mini Scan

The Asyra Mini Scan is your opportunity to experience the power of Asyra at an introductory price. As mentioned on page two, Asyra's Comprehensive Analysis includes evaluation of over 5,000 items such as Bacteria, Cell Salts, Chemical Toxins, Dental Disturbances, Digestive Distur-

bances, Fungi, Heavy Metals, Mycoplasma, Neurotransmitters, Parasites, and Protozoa. The Comprehensive Analysis will reveal causal factors.

mental toxins. Though this scan does not reveal the casual issue it does provide Nutritional and homeopathic support for symptomatic relief.

With the mini scan we limit the test to one or two of your symptomatic concerns such as allergies, food sensitivities, hormonal issues, environ-

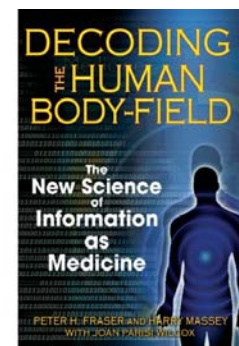

The mini scan is only \$40. and includes a personalized homeopathic remedy. We are giving several away at our next seminar.

Recommended Book on NES

Adding the Asyra nutritional assessment device is an exciting new tool that will complement the quantum power of NES. The NES system is unique in its ability to decode the human body energetic field.

NES is accessible to anyone who's interested in learning about quantum healing. It's written with obvious authority on the subject. It provides an excellent overview of current quantum physics theories and how these can apply to a revolution in health care.

Although we have copies available, I recommend that you purchase Decoding the Human Body-Field from Amazon.com to receive the best price.

Energetically working for your optimal health

Sunburn Depletes Vitamin F

One of the most severe and dangerous of all summer ravages is sunburn. As a boy my mother would always ice us down after the slightest evidence of overexposure to the sun. However, this simple remedy does not address the true underlying cause of sunburn which is the depletion of vitamin F. Vitamin F is linoleic acid which exists in polyunsaturated fats such as Safflower Oil, Olive Oil, Castor Bean Oil, Sunflower Oil, and Peanut Oil. The sun tends to burn up vitamin F as it increases vitamin D which is vitamin F's antagonist. Both vitamins are required in balance for optimal health. When we are overexposed, the

body sends its entire vitamin F reserve to the sunburned area to correct tissue damage. Vitamin F is a skin regenerator. Also as a result of this depletion wheat and corn allergies often develop. These allergies are common in summertime be-

Sunburn produces severe damage to deep skin tissue

cause of the lack of vitamin F. This is why people put oils on their bodies when in the sun.

When you get sunburned, you should avoid wheat and corn products. Salads, vegetable rich Chinese food and rice are much better than buns, rolls and pasta. It is wheat allergy that so drains your energy after sun exposure.

Synergy-Flex, Emu Oil, USF Ointment, and Chlorophyll Ointment promote tissue regeneration. Each are skin soothing, sunburn healing products we have available. Mention this article and you will receive 10% off the above products in July, and Aug.
